EXPERIENCE

Accenture

Nov. 2024 – May. 2026

Associate Software Engineer

Bengaluru, Karnataka

- Developed enterprise web applications on the **3DEXPERIENCE ENOVIA** platform using **HTML, CSS, and JavaScript**, building responsive and user-friendly interfaces from scratch.
- Collaborated with business analysts, senior developers, and QA teams to translate business requirements into intuitive, user-centred solutions while maintaining a consistent user experience.
- Successfully delivered end-to-end user stories, managing development, testing, bug fixing, and deployment within Agile sprint timelines.
- Customized ENOVIA widgets and backend services using MQL and Java to support business workflows and improve application usability.
- Consistently delivered high-quality work on time and received appreciation from senior team members and management for ownership, attention to detail, and timely execution.

CodeMyThought

Jul. 2024 – Nov. 2024

Web Developer Intern

Bengaluru, Karnataka

- Developed responsive and user-friendly websites using **HTML, CSS, JavaScript, PHP, and MySQL**, ensuring seamless experiences across desktop and mobile devices.
- Translated client requirements into intuitive and visually engaging interfaces, balancing functionality with usability and responsive design.
- Collaborated with clients and cross-functional teams to implement website features aligned with business goals and user needs.
- Integrated frontend interfaces with backend services and performed testing, debugging, and performance optimization to deliver reliable web applications.

Alive – Digital Classroom

Mar. 2024 – Jul. 2024

Frontend Developer Intern

Bengaluru, Karnataka

- Developed responsive UI components for an **online IDE using React.js and Material-UI**, focusing on creating intuitive and accessible user experiences.
- **Collaborated with the development and UI/UX teams** to build reusable interface components and ensure seamless integration across the application.
- Improved the platform through iterative enhancements based on team feedback, contributing to a more consistent and user-friendly interface.

PROJECTS

Skedyule – Video Conferencing Platform

- Designed and developed a responsive **video conferencing platform** with features including meeting scheduling, screen sharing, chat, and participant management.
- Created intuitive user interfaces and reusable components, ensuring a seamless meeting experience across desktop and mobile devices.
- Built dynamic participant layouts that adapted to different screen sizes and meeting sizes, improving usability and accessibility.
- Collaborated on frontend implementation to deliver a real-time communication platform with a consistent user experience.

Metelo – Digital Precious Metals Investment App

- Conducted market and user research to identify investor pain points in digital precious metal investing.
- Designed end-to-end user journeys, wireframes, and high-fidelity prototypes for onboarding, portfolio management, SIP investments, and market insights.
- Created a modern design system featuring reusable components, intuitive navigation, and responsive interfaces.

EDUCATION

DesignBoat

March. 2026 – Present

UI/UX Design

Bengaluru, Karnataka

- **Coursework:** User Research, Design Thinking, Information Architecture, Wireframing, Prototyping, Design Systems, Responsive Design, Usability Testing, Accessibility, Figma, Interaction Design, UX Case Studies

Acharya Institute of Technology

Oct. 2020 – May 2024

Bachelor of Engineering

Bengaluru, Karnataka

- **Coursework:** Data Structures, Algorithms, Databases, Computer Systems, Machine Learning

SKILLS

Design : User Research, User Interviews, Empathy Mapping, Personas, User Journey Mapping, Information Architecture, User Flows, Wireframing, Low-Fidelity Prototyping, High-Fidelity Prototyping, Interaction Design, Visual Design, Responsive Design, Mobile-First Design, Design Systems, Usability Testing

Tools : Figma, Notion, FigJam, Canva, [GitHub](#)

Development : HTML, CSS, Javascript, ReactJS, TailwindCSS, Java
